

The B2B & B2G international event  
dedicated to the french healthcare offer

26

January 19 - 20  
Paris

# Edito- French Healthcare Business Forum

Because health knows no borders, the French collective ambition deserves a forum worthy of its excellence.

Driven by French Healthcare Association with the support of the Ministry for Europe and Foreign Affairs, the French Healthcare Business Forum has, since its inception, established itself as a key international event showcasing French healthcare expertise.

In a world where health challenges are intensifying and global cooperation is being redefined, the third edition of the FHBF, to be held in Paris on January 19–20, 2026, carries a dual mission:

- to accelerate business opportunities between French players and international public and private decision-makers,
- and to promote a collective, innovative, and sovereign expertise that elevates France's influence on the global stage.

Once again, this exceptional B2B and B2G event will offer a unique platform for high-level meetings and the development of strategic collaborations between key stakeholders from the French healthcare ecosystem and foreign organisations from strategic markets.

Over two full days, the French Healthcare Business Forum 2026 will feature tailor-made one-on-one meetings with carefully selected counterparts based on participants' geographical and sectoral priorities, thematic conferences and practical workshops designed around target market challenges, and premium networking opportunities — a true catalyst for major projects and new alliances. The ambition remains clear: to create lasting and tangible impact for the international expansion of French healthcare expertise.

Welcome to the new edition of the French Healthcare Business Forum.  
Together, let's build the partnerships that will shape the future of health.

Jean-Pierre Boffy  
Chairman

Emile Jockey  
Chief Executive Officer

# French Healthcare Business Forum

An event supporting the internationalization of French healthcare expertise.

## High level B2B & B2G Meetings

Benefit from tailor-made business meetings with French companies and institutions, and explore strategic cooperation opportunities in health infrastructure, technology, care delivery, and innovation.

## Targeted international delegations and decision makers

Meet top French healthcare companies selected for their excellence, innovation, and ability to address global health challenges.  
Each encounter is carefully curated to match your country's needs and strategic priorities.

## A Platform for Impactful International Cooperation

Participate in strategic conferences, practical workshops, and high-level networking sessions, within a framework entirely dedicated to healthcare and international cooperation. This 100% healthcare, 100% international platform is designed to foster structured partnerships and accelerate impactful collaborative projects, with the full support of French diplomacy.

# An exceptional setting for high-level meetings - Paris Marriott Rive Gauche Hotel & Conference Center

**High-standard hospitality and accommodation for our guests, with all activities — from meetings to lodging — hosted in a single, premium location to ensure comfort, security, and operational efficiency.**

- Delegations will be hosted for 3 nights, from January 18 to 20th, at the Marriott Rive Gauche Hotel in Paris's 14th arrondissement — the official venue of the Forum.
- Dedicated spaces for one-on-one meetings, thematic conferences, practical workshops, and networking receptions will be available directly on-site.
- The program will also feature key events held in some of the most emblematic institutions of the French Republic.

# A CONFERENCE PROGRAMM

## showcasing French Healthcare Excellence

The FHBF 2026 conference program is designed to highlight the strength and diversity of the French healthcare ecosystem to a high-level international audience. The sessions will offer a platform to showcase key capabilities and expertise, and foster meaningful dialogues

- A high-level opening plenary will set the tone by exploring global health challenges and cooperation opportunities.
- Thematic conferences will address major industry trends, allowing speakers to share their knowledge and contribute to strategic thinking.
- Workshops and operational roundtables will offer a more practical setting to deep-dive into specific topics or priority markets.

### PROGRAM OBJECTIVES

- Showcase the diversity and performance of the French healthcare offer
- Generate productive exchanges around key global challenges
- Offer strategic visibility to expert speakers
- Foster an environment conducive to the emergence of concrete projects

## KEY THEMES FOR 2026

Health infrastructures

Oncology

Cardio-metabolic diseases

Ageing & healthy longevity

Mobility medicine & rehabilitation

Infection prevention & hygiene

Women's health

Medical training & capacity building

International patient care

# What is French Healthcare ?

The public-private initiative dedicated to the international promotion of French healthcare expertise, launched in 2017 by the Ministry of Europe and Foreign Affairs.

Driven by leading actors in their respective fields, the association brings together more than 300 public and private stakeholders, from the French healthcare sector, eager to collectively promote French excellence abroad.

**FRENCH HEALTHCARE ASSOCIATION  
BRIDGING GLOBAL HEALTHCARE  
WITH FRENCH EXPERTISE**

The association relies on a well-structured network, supported by:

- Global leaders in their industries;
- A rich fabric of innovative SMEs and startups;
- The excellence of French research and healthcare expertise.

A collective of experts reinforced by partnerships with globally recognised players.
